PROFILE

Customer-focused support professional with experience handling high-volume enquiries, investigating issues, managing case records and coordinating service delivery. Combines frontline customer service experience with an Information Technology background and hands-on service desk support, including Microsoft 365, Windows, ServiceNow and structured troubleshooting. Experienced with CRM and ticketing workflows, including Salesforce, ServiceNow and Zendesk, with a strong focus on accurate categorisation, prioritisation, documentation, follow-up and escalation. Known for clear communication, ownership, empathy and the ability to learn new SaaS, CRM and support platforms quickly.

CORE SKILLS

Customer Support	Technical Troubleshooting	Ticket & Case Management
Zendesk	Salesforce	ServiceNow
Email, Phone & Chat Support	Issue Investigation & Escalation	CRM / SaaS Platforms
Customer Empathy & De-escalation	Documentation & Knowledge Base	SLA / KPI-focused Delivery
Microsoft 365 & Windows	IFS & Excel	User Onboarding & Guidance

PROFESSIONAL EXPERIENCE

Customer Support Advisor | MGroup, London March 2026 – August 2026

- Handle 120+ customer interactions daily across telephone and digital channels, identifying needs, resolving issues and arranging appropriate next steps while maintaining a calm, professional customer experience.
- Log and update customer cases, notes and follow-up actions across workflow/ticketing systems, maintaining clear records that support accurate handover and resolution.
- Use IFS and Excel to coordinate smart meter installation appointments, maintaining 98%+ scheduling accuracy and ensuring customer information remains complete and up to date.
- Investigate customer and operational issues, categorise cases, prioritise urgent matters and escalate only when required, balancing customer impact, process and service targets.
- Adapt rapidly to new systems, policies and workflows while maintaining documentation quality, regulatory compliance and KPI performance.

Customer Support Agent | Konecta (Danone), London February 2026 – March 2026 | Short-term contract

- Handled inbound customer enquiries with empathy and clear communication, resolving routine issues and guiding customers through the appropriate next steps.
- Used Salesforce CRM and ticketing-style case workflows to log interactions, capture issue details, document actions and maintain accurate customer histories.
- Investigated queries using structured problem-solving, identifying suitable resolutions before escalating complex or out-of-scope cases.
- Learned new systems, policies and workflows quickly in a fast-moving customer operations environment while maintaining service standards and accurate records.

IT Support / Service Desk Analyst | London May 2024 – December 2024

- Resolved hardware, software, Windows and Microsoft 365 incidents using structured troubleshooting, achieving 95%+ first-contact resolution across supported users.
- Took ownership of incidents from initial triage through resolution or escalation, documenting investigation steps, fixes and handover details in ServiceNow.
- Managed Active Directory accounts, permissions and Group Policy changes, resolving authentication and access issues while following security and support procedures.
- Created knowledge-base resources and troubleshooting documentation that improved first-line resolution consistency and reduced repeat escalations.

- Explained technical issues in clear, non-technical language and maintained a customer-first approach while working to SLA targets.

IT Support Engineer (Intern) | Aptech Computer Education, Nigeria *March 2022 – August 2023*

- Diagnosed hardware, software and network issues and provided first-line support to end users across multiple technology platforms.
- Reduced repeat escalations by approximately 30% by creating troubleshooting guides, process documentation and reusable knowledge-base articles.
- Supported Microsoft Azure and VMware environments and assisted with user onboarding, device deployment and account administration.
- Collaborated with senior engineers to investigate incidents, document findings and support infrastructure maintenance activities.

Bar Back / Bartender | Nobu Hotel Portman Square, London *Hospitality Experience*

- Delivered polished, attentive service in a high-end hospitality environment, responding quickly to guest requests and maintaining professional standards under pressure.
- Worked closely with colleagues across busy service periods, demonstrating communication, teamwork, discretion and strong attention to detail.

EDUCATION

BSc (Hons) Information Technology & Business Information Systems | Middlesex University, London *2023 – 2024 | First Class Honours*

Advanced Diploma in Software Engineering (ADSE) | Aptech Computer Education, Nigeria *2019 – 2022 | Distinction*
